

# Exhibit 2

## Filed Under Seal

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

**UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN JOSE DIVISION**

CISCO SYSTEMS, INC.,

Plaintiff,

v.

ARISTA NETWORKS, INC.,

Defendant.

Case No. 5:14-cv-05344-BLF (PSG)

**REBUTTAL EXPERT REPORT OF KEVIN ALMEROTH**

**SUBMITTED ON BEHALF OF CISCO SYSTEMS, INC.**

**CONTAINS HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY INFORMATION**

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

**I. INTRODUCTION**

1. I have been retained by counsel for Cisco Systems, Inc. (“Cisco”) as an expert in this litigation to provide opinions regarding Cisco’s copyrighted works and the infringement of certain Cisco copyrights by Arista Networks, Inc. (“Arista”).

2. I have also been asked to analyze and respond to the following expert reports submitted on June 3, 2016 on behalf of Arista:

- Expert Report of John R. Black Jr. (“Black”)
- Expert Report and Disclosure of Cate M. Elsten (“Elsten”)
- Opening Expert Report of Williams M. Seifert (“Seifert”)

3. My analysis, opinions, and reasoning are detailed below and in my opening report as well as the exhibits that accompanied my opening report, which provide additional analysis, opinion, reasoning, and evidence, and which are incorporated here by reference.

4. I am paid my customary rate of \$600 an hour for time spent on research, report preparation, deposition and/or trial. I am reimbursed for incurred expenses. I have not received, and do not expect to receive, any additional compensation for my work on this action, and payment of my fees is in no way contingent upon the outcome of this case, the outcome of my investigation, or the opinions that I provide.

5. In this report I have provided the following main opinions/rebuttals:

a. None of Arista’s experts have shown that Cisco’s copyrighted works or its IOS CLI is an industry standard and, in fact, the data provided by Dr. Black confirms my opinions.

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

b. I disagree with Arista’s experts’ opinions regarding the originality and creativity of Cisco’s copyrighted works, and none of their opinions show that any of the copyrighted works are unoriginal or not creative.

c. Arista’s experts’ opinions regarding the doctrines of *scenes a faire*, merger, and short phrases are inapplicable to the copyrighted works at issue in this case, and I therefore disagree that they have any impact on the copyrightability or originality of the copyrighted works.

d. None of Arista’s experts have come forward with evidence or opinion that would tend to show that any of the fair use factors—which I understand Arista bears the burden on—favor Arista.

e. I disagree with Arista’s experts’ discussion and analysis of certain ancillary products not at issue in this case (e.g., network orchestration products and ConfD), and it is my opinion that those products have no bearing on whether Arista copied Cisco’s copyrighted works in this case.

## **II. BACKGROUND & QUALIFICATIONS**

### **A. Qualifications**

6. In forming my opinions, I am relying on my education and experience as described below.

7. I summarize in this section my educational background, career history, publications, and other relevant qualifications.

8. I am currently a Professor in the Department of Computer Science at the University of California, Santa Barbara (UCSB). I also hold an appointment and am a founding member of the Computer Engineering (CE) Program. I am a founding member of the Media

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

Arts and Technology (MAT) Program, and the Technology Management Program (TMP). I also served as the Associate Director of the Center for Information Technology and Society (CITS) from 1999 to 2012. I have been a faculty member at UCSB since July 1997.

9. I hold three degrees from the Georgia Institute of Technology: (1) a Bachelor of Science degree in Information and Computer Science (with minors in Economics, Technical Communication, and American Literature) earned in June 1992; (2) a Master of Science degree in Computer Science (with specialization in Networking and Systems) earned in June 1994; and (3) a Doctor of Philosophy (Ph.D.) degree in Computer Science (Dissertation Title: Networking and System Support for the Efficient, Scalable Delivery of Services in Interactive Multimedia Systems, with a minor in Telecommunications Public Policy) earned in June 1997.

10. One of the major themes of my research has been the delivery of multimedia content and data between computing devices and users. In my research, I have looked at large-scale content delivery systems and the use of servers located in a variety of geographic locations to provide scalable delivery to hundreds, even thousands, of users simultaneously. I have also looked at smaller-scale content delivery systems in which content, including interactive communication like voice and video data, is exchanged between computers and portable computing devices. As a broad theme, my work has examined how to exchange content more efficiently across computer networks, including the devices that switch and route data traffic. More specific topics include the scalable delivery of content to many users, mobile computing, satellite networking, delivering content to mobile devices, and network support for data delivery in wireless network.

11. Beginning in 1992, when I started graduate school, the first focus of my research was on the provision of interactive functions (VCR-style functions like pause, rewind, and fast-

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

forward) for near video-on-demand systems in cable systems. In particular, my work explored how to aggregate requests for movies at a cable head-end, and then how to satisfy a multitude of requests using one audio/video stream broadcast to multiple receivers simultaneously.

Continued evolution of this research has resulted in the development of new techniques to scalably deliver on-demand content including audio, video, web documents, and other types of data, through the Internet and over other types of networks, including cable systems, broadband telephone lines, and satellite links.

12. An important component of my research from the very beginning has been investigating the challenges of communicating multimedia content between computers and across networks. Although the early Internet was designed mostly for text-based non-real time applications, the interest in sharing multimedia content quickly developed. Multimedia-based applications range from downloading content to a device to streaming multimedia content to be instantly used. One of the challenges is that multimedia content is typically larger than text-only content, but there are also opportunities to use different delivery techniques since multimedia content is more resilient to errors. I have worked on a variety of research problems and used a number of systems that were developed to deliver multimedia content to users.

13. In 1994, I began to research issues associated with the development and deployment of a one-to-many communication facility (called “multicast”) in the Internet (first deployed as the Multicast Backbone, a virtual overlay network supporting one-to-many communication). Some of my more recent research endeavors have looked at how to use the scalability offered by multicast to provide streaming media support for complex applications like distance learning, distributed collaboration, distributed games, and large-scale wireless communication. Multicast has also been used as the delivery mechanism in systems that perform

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

local filtering (*i.e.*, sending the same content to a large number of users and allowing them to filter locally content in which they are not interested). As part of this research, I looked at how to implement multicast functionality in Internet routers and switches and undertook an extensive analysis of how multicast was being used in the Internet by collecting and analyzing Internet router data.

14. Starting in 1997, I worked on a project to integrate the streaming media capabilities of the Internet together with the interactivity of the web. I developed a project called the Interactive Multimedia Jukebox (IMJ). Users would visit a web page and select content to view. The content would then be scheduled on one of a number of channels, including delivery to students in Georgia Tech dorms via the campus cable plant. The content of each channel was delivered using multicast communication.

15. In the IMJ, the number of channels varied depending on the capabilities of the server including the available bandwidth of its connection to the Internet. If one of the channels was idle, the requesting user would be able to watch their selection immediately. If all channels were streaming previously selected content, the user’s selection would be queued on the channel with the shortest wait time. In the meantime, the user would see what content was currently playing on other channels, and because of the use of multicast, would be able to join one of the existing channels and watch the content at the point it was currently being transmitted.

16. The IMJ service combined the interactivity of the web with the streaming capabilities of the Internet to create a jukebox-like service. It supported true Video-on-Demand when capacity allowed, but scaled to any number of users based on queuing requested programs. As part of the project, we obtained permission from Turner Broadcasting to transmit cartoons and other short subject content. We also attempted to connect the IMJ into the Georgia Tech

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

campus cable television network so that students in their dorms could use the web to request content and then view that content on one of the campus’s public access channels.

17. More recently, I have also studied issues concerning how users choose content, particularly when considering the price of that content. My research has examined how dynamic content pricing can be used to control system load. By raising prices when systems start to become overloaded (i.e., when all available resources are fully utilized) and reducing prices when system capacity is readily available, users’ capacity to pay as well as their willingness can be used as factors in stabilizing the response time of a system. This capability is particularly useful in systems where content is downloaded or streamed to users on-demand.

18. As a parallel research theme, starting in 1997, I began researching issues related to wireless devices. In particular, I was interested in showing how to provide greater communication capability to “lightweight devices,” *i.e.*, small form-factor, resource-constrained (*e.g.*, CPU, memory, networking, and power) devices.

19. Starting in 1998, I published several papers on my work to develop a flexible, lightweight, battery-aware network protocol stack. The lightweight protocols we envisioned were similar in nature to protocols like Universal Plug and Play (UPnP) and Digital Living Network Alliance (DLNA).

20. From this initial work, I have made wireless networking—including ad hoc and mesh networks and wireless devices—one of the major themes of my research. One topic includes developing applications for mobile devices, for example, virally exchanging and tracking “coupons” through “opportunistic contact” (i.e., communication with other devices coming into communication range with a user). Other topics include building network communication among a set of mobile devices unaided by any other kind of network

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

infrastructure. Yet another theme is monitoring wireless networks, in particular different variants of IEEE 802.11 compliant networks, to (1) understand the operation of the various protocols used in real-world deployments, (2) use these measurements to characterize use of the networks and identify protocol limitations and weaknesses, and (3) propose and evaluate solutions to these problems.

21. As an important component of my research program, I have been involved in the development of academic research into available technology in the market place. One aspect of this work is my involvement in the Internet Engineering Task Force (IETF), including many content delivery-related working groups like the Audio Video Transport (AVT) group, the MBone Deployment (MBONED) group, Source Specific Multicast (SSM) group, the Inter-Domain Multicast Routing (IDMR) group, the Reliable Multicast Transport (RMT) group, the Protocol Independent Multicast (PIM) group, etc. I have also served as a member of the Multicast Directorate (MADDOGS), which oversaw the standardization of all things related to multicast in the IEFT. Finally, I was the Chair of the Internet2 Multicast Working Group for seven years. In many of these efforts, I worked closely with numerous companies, including many in the routing/switching space. As part of my work in the IETF, I also wrote several RFCs and worked to standardize new network management protocols.

22. I am an author or co-author of nearly 200 technical papers, published software systems, IETF Internet Drafts and IETF Request for Comments (RFCs).

23. My involvement in the research community extends to leadership positions for several journals and conferences. I am the co-chair of the Steering Committee for the ACM Network and System Support for Digital Audio and Video (NOSSDAV) workshop and on the Steering Committees for the International Conference on Network Protocols (ICNP), ACM

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

Sigcomm Workshop on Challenged Networks (CHANTS), and IEEE Global Internet (GI) Symposium. I have served or am serving on the editorial boards of IEEE/ACM Transactions on Networking, IEEE Transactions on Mobile Computing, IEEE Transactions on Networks and System Management, IEEE Network, ACM Computers in Entertainment, AACE Journal of Interactive Learning Research (JILR), and ACM Computer Communications Review.

24. I have co-chaired a number of conferences and workshops including the IEEE International Conference on Network Protocols (ICNP), ACM International Conference on Next Generation Communication (CoNext), IEEE Conference on Sensor, Mesh and Ad Hoc Communications and Networks (SECON), International Conference on Communication Systems and Networks (COMSNETS), IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS), the International Workshop On Wireless Network Measurement (WiNMee), ACM Sigcomm Workshop on Challenged Networks (CHANTS), the Network Group Communication (NGC) workshop, and the Global Internet Symposium; and I have been on the program committee of numerous conferences.

25. Furthermore, in the courses I teach, the class spends significant time covering all aspects of the Internet including each of the layers of the Open System Interconnect (OSI) protocol stack commonly used in the Internet. These layers include the physical and data link layers and their handling of signal modulation, error control, and data transmission. I also teach DOCSIS, DSL, and other standardized protocols for communicating across a variety of physical media including cable systems, telephone lines, wireless, and high-speed Local Area Networks (LANs).

26. I teach the configuration and operation of switches, routers, and gateways including routing and forwarding and the numerous respective protocols as they are standardized

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

and used throughout the Internet. Topics include a wide variety of standardized Internet protocols at the Network Layer (Layer 3), Transport Layer (Layer 4), and above.

27. In addition to having co-founded a technology company myself, I have worked for, consulted with, and collaborated with various technology companies, including IBM, Hitachi Telecom, Digital Fountain, RealNetworks, Intel Research, Cisco Systems, and Lockheed Martin. With many of these companies as well as numerous other companies in similar areas, I interacted with researchers and collaborated with peers at IETF meetings.

28. I am a Member of the Association of Computing Machinery (ACM) and a Fellow of the Institute of Electrical and Electronics Engineers (IEEE).

29. In my 35 years of experience with computer software, I have reviewed innumerable lines of source code written by many different programmers. And as mentioned above, I also teach the configuration and operation of various network devices (switches, routers, gateways), which includes topics related to command line interface computer programs and the technology upon which such programs are based. I also teach network programming classes and assign programming projects that I personally review and grade.

30. As a result of my teaching, I am familiar with variations of command and program expression that arise when a set of engineers and/or programmers are asked to solve a problem. What I have found in my decades of experience is that engineers and programmers find many ways to write commands and programs to express solutions to the same problem.

31. I also am familiar with tools used to assist in the detection of plagiarism or source code copying in a university setting. I have worked with UCSB to develop software tools for detecting plagiarism. For example, I was involved in developing the PAIRwise Plagiarism Detection Systems (“PAIRwise”). PAIRwise is a service that I helped invent that provides a

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

variety of functions including comparing assignments against other assignments in a class and comparing assignments against the vast amount of data available on the Internet. The goal is to help professors detect plagiarism in their students’ work.

32. I also have conducted research; co-authored papers; and developed systems to support the detection of plagiarism through document comparison and similarity detection (*see, e.g.,* the papers and systems in my CV, specifically II.A.55, II.A.40, II.B.36, and II.E.15). I have also used tools like CopyFind, PAIRwise, and the Measure of Software Similarity (MOSS) program in my courses.

33. Furthermore, I find programming an expressive, creative endeavor, just like technical writing. In both cases, although there is a purpose to be served, there are many ways to accomplish the goal, and a wide range of expressive choices in doing so.

34. I attach as **Attachment A** my *curriculum vitae*, which includes a more complete list of my qualifications.

**B. Materials Considered**

35. In forming my opinions, I have relied on my education and experience as described above.

36. I have also reviewed and considered the materials cited in this reports as well as the materials listed in **Attachment B** to my opening report, the materials listed in **Attachment C** to this report, and the materials cited in all exhibits to my opening report, all of which are incorporated here by reference.

37. I also have inspected and/or tested the switches, source code, and products set forth in my opening report.

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]<sup>148</sup> As my opening report shows, however, Arista did not stop “using IOS CLI output in” its documents. Arista’s CEO confirmed the same after this lawsuit was filed when she admitted that Arista copied Cisco’s documents and that it was wrong and a mistake<sup>149</sup>:

“The first claim is in the technical-documentation area, and they say that we have copied pieces of their documentation. We have done a thorough review over the weekend, and to the best of our ability we can see that—this is something that is completely unacceptable to me . . . . I own up to that. That’s a mistake.”<sup>150</sup>

[REDACTED]<sup>151</sup>

As a result, and consistent with Arista’s copying of Cisco’s copyrighted works, significant portions of Arista’s documentation are incredibly similar to, and in many instances precisely the same as, Cisco IOS documentation.<sup>152</sup>

148. Although I believe that the quantitative aspect of Arista’s copying is far more significant here because Arista has taken the heart and soul of Cisco’s copyrighted works, I have nevertheless attempted to quantify the examples of Arista’s copying that I have found. Because these are examples, in my opinion they are conservative estimates of the scope of Arista’s copying. From a quantitative perspective:

a. Arista copied at least 579 command help screens across IOS and IOS-XR, as shown in Exhibit-6. This is a conservative estimate as it does not include NX-OS, and

<sup>147</sup> [REDACTED]

<sup>148</sup> [REDACTED]

<sup>149</sup> CSI-CLI-00357842 at CSI-CLI-00357849; [REDACTED]

<sup>150</sup> CSI-CLI-00357842 at CSI-CLI-00357849 (emphasis added).

<sup>151</sup> [REDACTED]

<sup>152</sup> Almeroth Copying Exhibit-1, and Exhibit -3.

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

I have attempted to remove duplicates and non-multi-word outputs. Furthermore, not all of these are identical matches; for those that are not identical, they are at least within a 75% hit range on a per command help description basis, which in my opinion shows copying as well. Furthermore, these are significant because they are not only evidence that Arista copied output displays [REDACTED] which rebuts Arista’s claim (and its experts’ claims) [REDACTED]

[REDACTED] Lastly, the 579 total does not account for the examples I provided in my report starting at Paragraph 127 that are not listed in Exhibit-6, which account for roughly 30 additional examples, which brings the total to 609.

b. With respect to output displays, Exhibit-3 to my opening report lists 37 different examples of copied outputs, and I also included the copied “help screen” in my opening report, which raises the total of exemplary output displays copied to 38.

However, I note that these displays were copied into 11 different Arista user manuals<sup>153</sup> and from 18 unique Cisco documents over time.<sup>154</sup> So, in total, there are 324 instances of

---

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

Arista copying these 37 outputs into its documents in addition to copying them into EOS itself. [REDACTED]

[REDACTED].<sup>155</sup> These examples further confirm the large amount of copying.

c. With respect to the copying of Cisco’s technical documents (excluding the outputs discussed previously), Exhibit-1 to my opening report shows roughly 531 copying examples from 107 unique Cisco documents. In total, Exhibit-1 shows 2522 instances of Arista copying Cisco’s technical documents.

d. Arista copied 8 out of 8 modes in 15 different versions of EOS, as shown in Exhibit-4 to my opening report.

e. Arista copied 8 out of 8 prompts in 15 different versions of EOS, as shown in Exhibit-4 to my opening report.

f. Arista copied 11 command expression hierarchies across 15 different versions of EOS, as shown in Exhibit-5 to my opening report.

149. Furthermore, [REDACTED]

150. Industry analysts have confirmed my opinions as well. An article published in CRN in 2014 stated: “[Arista] created a CLI [command-line interface] that looks and acts very much like Cisco’s...there are a lot of folks out there that are proficient with the Cisco command-line and user interface. Arista is a real natural fit for them.”<sup>163</sup> Another third-party commented

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

on the similarity between the two CLIs as follows: “Arista provides a CISCO like CLI, when I say ‘CISCO like’ I mean it’s 95% the same commands...”<sup>164</sup>

151. IOS and its documents comprise a compilation of many different groupings of creative expressions (not unlike an encyclopedia), some of which have no bearing on this case. Indeed, each IOS version has numerous “books” (as Cisco refers to them from time to time) that address different groups of commands and related outputs. For example, Cisco has documents for mobile devices, embedded technology, and networking (among many others).<sup>165</sup> Thus, from a technical perspective it would be misleading and incorrect to assume that every document in the compilation of “registered” works would be relevant to the analysis of what Cisco alleges to have been copied here. What is relevant are the works related to Ethernet switches/routers. And in my professional opinion as a computer scientist and engineer, other engineers and computer scientists would know the difference between what is relevant to Ethernet switch/router technology and what is not.

<sup>166</sup> [REDACTED]

HIGHLY CONFIDENTIAL – ATTORNEYS’ EYES ONLY

153. [REDACTED]

[REDACTED]<sup>167</sup> I have analyzed Arista’s user manuals for all versions of EOS at issue, and what I have found is that there is substantially more overlap than that—in some cases 100x more. What my analysis shows is that up to 67% of earlier versions of Arista EOS were comprised of commands copied from Cisco and that, as Arista added more commands overtime, that percentage gradually decreased to 37.6%:

EOS Versions	Number of Copied Commands	Total Commands in EOS Manual	Total Command % Between Second And Third Columns
4.0.1	101/509	189	53.4%
4.4.0	167/509	308	54.2%
4.6.2	126/509	188	67.0%
4.10.0	353/509	674	52.4%
4.11.1.2	431/509	853	50.5%
4.11.2.1	445/509	890	50.0%
4.12.4	472/509	1084	43.5%
4.13.6F	508/509	1263	40.2%
4.13.7M	508/509	1281	39.7%
4.14.3F	508/509	1327	38.3%
4.14.5F	507/509	1341	37.8%
4.14.6M	507/509	1339	37.9%
4.15.0F	456/509	1368	33.3%
4.15.3F	508/509	1352	37.6%

Board of Advisors	Santa Barbara Technology Group Santa Barbara, CA	Sep 2000 -- Dec 2004
Board of Directors	Virtual Bandwidth, Inc. Santa Barbara, CA	Nov 2000 -- Jun 2001
Board of Advisors & Affiliated Scientist	Digital Fountain San Francisco, CA	Jan 2000 -- Dec 2001
Senior Technologist	IP Multicast Initiative, Stardust Forums Campbell, CA	Jun 1998 -- Dec 2000

## I. Teaching

**A. Courses Taught**

CS 176A	Intro to Computer Communication Networks	Fall 1997, Fall 1998, Fall 2002, Fall 2003, Fall 2004, Spring 2005, Spring 2006, Spring 2007, Spring 2008, Fall 2008, Fall 2009, Fall 2010, Fall 2011, Fall 2012, Fall 2013, Fall 2014
CS 176B	Network Computing	Winter 2000, Winter 2001, Winter 2002, Winter 2012, Winter 2014, Winter 2015
MAT 201B	Media Networks and Services	Fall 1999, Fall 2000, Fall 2001, Fall 2003
CS 276	Distributed Computing and Computer Networks	Winter 1999, Spring 2000, Fall 2002, Fall 2005
CS 290I	Networking for Multimedia Systems	Winter 1998, Spring 1999, Fall 2004, Winter 2010
CS 595N	Technology and Society	Winter 2005, Fall 2005, Spring 2006, Fall 2006, Spring 2007, Fall 2007, Spring 2008, Fall 2008, Spring 2009
CS 595N	Economic Systems Seminar	Winter 2004, Spring 2004, Winter 2005, Spring 2005
CS 595N	Networking Seminar	Winter 1999, Fall 1999, Winter 2003
CS 595N	Wireless Networking & Multimedia Seminar	Fall 2000
CS 595I	Systems Design and Implementation Seminar	Fall 1999, Fall 2000, Winter 2001, Spring 2001, Winter 2002, Spring 2002

**B. Other Teaching Experience**

- *The Evolution of Advanced Networking Services: From the ARPAnet to Internet2*, Instructor, Summer 2001. Short course taught at Escuela de Ciencias Informatica (ECI) sponsored by the Universidad de Buenos Aires.
- *Johns Hopkins Center for Talented Youth*, Instructor, Summer 1994. CTY is a program to teach gifted high school students the fundamentals of computer science.
- *Georgia Institute of Technology*, Graduate Teaching Assistant, Sep 1994--Sep 1996. Worked as a TA for 12 quarters teaching 7 different courses (4 undergraduate and 3 graduate).

**C. Ph.D. Students Advised [14 graduated]**

14. Daniel Havey  
Research Area: *Throughput and Delay on the Packet Switched Internet*  
Date Graduated: Winter 2015  
First Position: Microsoft
13. Lara Deek (co-advised with E. Belding)  
Research Area: *Resource-Efficient Wireless Systems for Emerging Wireless Networks*  
Date Graduated: Summer 2014  
First Position: Post Doc, UIUC
12. Mike Wittie

- Research Area: *Towards Sustained Scalability of Communication Networks*  
Date Graduated: Summer 2011  
First Position: Assistant Professor, Montana State University
11. Allan Knight  
Research Area: *Supporting Integration of Educational Technologies and Research of Their Effects on Learning*  
Date Graduated: Summer 2009  
First Position: Research Scientist, Citrix Online
  10. Hangjin Zhang  
Research Area: *Towards Blended Learning: Educational Technology to Improve and Assess Teaching and Learning*  
Date Graduated: Spring 2009  
First Position: Microsoft
  9. Gayatri Swamynathan  
Dissertation Title: *Towards Reliable Reputations for Distributed Applications*  
Date Graduated: Spring 2008  
First Position: Zynga
  8. Amit Jardosh (co-advised with E. Belding)  
Dissertation Title: *Adaptive Large-Scale Wireless Networks: Measurements, Protocol Designs, and Simulation Studies*  
Date Graduated: Fall 2007  
First Position: Yahoo!
  7. Khaled Harras  
Dissertation Title: *Protocol and Architectural Challenges in Delay and Disruption Tolerant Networks*  
Date Graduated: Summer 2007  
First Position: Assistant Professor, Carnegie Mellon University
  6. Krishna Ramachandran (co-advised with E. Belding)  
Dissertation Title: *Design, Deployment, and Management of High-Capacity Wireless Mesh Networks*  
Date Graduated: Winter 2006  
First Position: Research Scientist, Citrix Online
  5. Robert Chalmers  
Dissertation Title: *Improving Device Mobility with Intelligence at the Network Edge*  
Date Graduated: Summer 2004  
First Position: President and CEO, Limbo.net
  4. Prashant Rajvaidya  
Dissertation Title: *Achieving Robust and Secure Deployment of Multicast*  
Date Graduated: Spring 2004  
First Position: President and CTO, Mosaic Networking
  3. Sami Rollins  
Dissertation Title: *Overcoming Resource Constraints to Enable Content Exchange Applications in Next-Generation Environments*  
Date Graduated: Spring 2003  
First Position: Assistant Professor, Mount Holyoke College
  2. Srinivasan Jagannathan  
Dissertation Title: *Multicast Tree-Based Congestion Control and Topology Management*  
Date Graduated: Spring 2003  
First Position: Consultant, Kelly & Associates
  1. Kamil Sarac  
Dissertation Title: *Supporting a Robust Multicast Service in the Global Infrastructure*  
Date Graduated: Spring 2002  
First Position: Assistant Professor, UT-Dallas

**D. M.S. Students Advised (Thesis/Project Option) [19 graduated and 1 current]**

20. Greg Parsons  
Research Area: *Drone-Based Mesh Networks*  
Date Started: Fall 2014
19. Neer Shey  
Research Area: *Analyzing Content Distribution Through Opportunistic Contact for Smart Cellular Phones*  
Date Graduated: Spring 2010
18. Camilla Fiorese  
Research Area: *Analysis of a Pure Rate-Based Congestion Control Algorithm*  
Date Graduated: Summer 2009
17. Brian Weiner  
Research Area: *Multi-Socket TCP: A Simple Approach to Improve Performance of Real-Time Applications over TCP*  
Date Graduated: Fall 2007
16. Avijit Sen Mazumder  
Research Area: *Facilitating Robust Multicast Group Management*  
Date Graduated: Fall 2005
15. Rishi Matthew  
Thesis Title: *Providing Seamless Access to Multimedia Content on Heterogeneous Platforms*  
Date Graduated: Summer 2004
14. Camden Ho  
Research Area: *Tools and Techniques for Wireless Network Management*  
Date Graduated: Spring 2004
13. Amit Jardosh (co-advised with E. Belding)  
Research Area: *Realistic Environment Models for Mobile Network Evaluation*  
Date Graduated: Spring 2004
12. Nitin Solanki  
Research Area: *SongWand: A Wireless Barcode Scanner Using Bluetooth Technology*  
Date Graduated: Winter 2004
11. Vrishali Wagle (co-advised with E. Belding)  
Research Area: *An Ontology-Based Service Discovery Mechanism*  
Date Graduated: Winter 2004
10. Uday Mohan  
Thesis Title: *Scalable Service Discovery in Mobile Ad hoc Networks*  
Date Graduated: Spring 2003
9. Krishna Ramachandran  
Thesis Title: *Ubiquitous Multicast*  
Date Graduated: Spring 2003
8. John Slonaker  
Thesis Title: *Inductive Loop Signature Acquisition Techniques*  
Date Graduated: Spring 2002
7. Mohammad Battah  
Thesis Title: *Dedicated Short-Range Communications Intelligent Transportation Systems Protocol (DSRC-ITS)*  
Date Graduated: Spring 2002
6. Kevin Vogel  
Thesis Title: *Integrating E-Commerce Applications into Existing Business Infrastructures*  
Date Graduated: Spring 2001
5. Sami Rollins  
Thesis Title: *Audio Xml: Aural Interaction with XML Documents*  
Date Graduated: Winter 2000
4. Andy Davis

- Thesis Title: *Stream Scheduling for Data Servers in a Scalable Interactive TV System*  
 Date Graduated: Spring 1999
3. David Makofske  
 Thesis Title: *MHealth: A Real-Time Graphical Multicast Monitoring Tool*  
 Date Graduated: Winter 1999
2. Prashant Rajvaidya  
 Thesis Title: *MANTRA: Router-Based Monitoring and Analysis of Multicast Traffic*  
 Date Graduated: Winter 1999
1. Alex DeCastro (co-advised with Yuan-Fang Wang)  
 Thesis Title: *Web-Based Collaborative 3D Modeling*  
 Date Graduated: Winter 1998

## E. Teaching Awards

2006-2007 UCSB Academic Senate Distinguished Teaching Award  
 2004-2005 Computer Science Outstanding Faculty Member  
 2000-2001 UCSB Spotlight on Excellence Award  
 1999-2000 Computer Science Outstanding Faculty Member (co-recipient)  
 1998-1999 Computer Science Outstanding Faculty Member (co-recipient)  
 1997-1998 Computer Science Outstanding Faculty Member

## II. Research

### A. Journal Papers, Magazine Articles, Books, and Book Chapters

62. L. Deek, E. Garcia-Villegas, E. Belding, S.J. Lee, and K. Almeroth, "[A Practical Framework for 802.11 MIMO Rate Adaptation](#)," *Computer Networks*, vol. 83, num. 6, pp. 332-348, June 2015.
61. L. Deek, E. Garcia-Villegas, E. Belding, S.J. Lee, and K. Almeroth, "[Intelligent Channel Bonding in 802.11n WLANs](#)," *IEEE Transactions on Mobile Computing*, vol. 13, num. 6, pp. 1242-1255, June 2014.
60. H. Zhang and K. Almeroth, "[Alternatives for Monitoring and Limiting Network Access to Students in Network-Connected Classrooms](#)," *Journal of Interactive Learning Research (JILR)*, vol. 24, num. 3, pp. 237-265, July 2013.
59. M. Tavakolifard and K. Almeroth, "[A Taxonomy to Express Open Challenges in Trust and Reputation Systems](#)," *Journal of Communications*, vol. 7, num. 7, pp. 538-551, July 2012.
58. M. Tavakolifard and K. Almeroth, "[Social Computing: An Intersection of Recommender Systems, Trust/Reputation Systems, and Social Networks](#)," *IEEE Network*, vol. 26, num. 4, pp. 53-58, July/August 2012.
57. M. Tavakolifard, K. Almeroth, and P. Ozturk, "[Subjectivity Handling of Ratings for Trust and Reputation Systems: An Abductive Reasoning Approach](#)," *International Journal of Digital Content Technology and its Applications (JDCTA)*, vol. 5, num. 11, pp. 359-377, November 2011.
56. R. Raghavendra, P. Acharya, E. Belding and K. Almeroth, "[MeshMon: A Multi-Tiered Framework for Wireless Mesh Network Monitoring](#)," *Wireless Communications and Mobile Computing (WCMC) Journal*, vol. 11, num. 8, pp. 1182-1196, August 2011.

55. A. Knight and K. Almeroth, "[Automatic Plagiarism Detection with PAIRwise 2.0](#)," Journal of Interactive Learning Research (JILR), vol. 22, num. 3, pp. 379-400, July 2011.
54. V. Kone, M. Zheleva, M. Wittie, B. Zhao, E. Belding, H. Zheng, and K. Almeroth, "[AirLab: Consistency, Fidelity and Privacy in Wireless Measurements](#)," ACM Computer Communications Review, vol. 41, num. 1, pp. 60-65, January 2011.
53. G. Swamynathan, K. Almeroth, and B. Zhao, "[The Design of a Reliable Reputation System](#)," Electronic Commerce Research Journal, vol. 10, num. 3-4, pp. 239-270, December 2010.
52. P. Acharya, A. Sharma, E. Belding, K. Almeroth and K. Papagiannaki, "[Rate Adaptation in Congested Wireless Networks through Real-Time Measurements](#)," IEEE Transactions on Mobile Computing, vol. 9, num. 11, pp. 1535-1550, November 2010.
51. R. Raghavendra, E. Belding, K. Papagiannaki, and K. Almeroth, "[Unwanted Link Layer Traffic in Large IEEE 802.11 Wireless Networks](#)," IEEE Transactions on Mobile Computing, vol. 9, num. 9, pp. 1212-1225, September 2010.
50. H. Zhang and K. Almeroth, "[Moodog: Tracking Student Activity in Online Course Management Systems](#)," Journal of Interactive Learning Research (JILR), vol. 21, num. 3, pp. 407-429, July 2010.
49. R. Chertov and K. Almeroth, "[Qualitative Comparison of Link Shaping Techniques](#)," International Journal of Communication Networks and Distributed Systems, vol. 5, num. 1/2, pp. 109-129, July 2010.
48. A. Knight and K. Almeroth, "[Fast Caption Alignment for Automatic Indexing of Audio](#)," International Journal of Multimedia Data Engineering and Management, vol. 1, num. 2, pp. 1-17, April-June 2010.
47. K. Harras and K. Almeroth, "[Scheduling Messengers in Disconnected Clustered Mobile Networks](#)," Ad Hoc & Sensor Wireless Networks, vol. 9, num. 3-4, pp. 275-304, March-April 2010.
46. A. Jardosh, K. Papagiannaki, E. Belding, K. Almeroth, G. Iannaccone, and B. Vinnakota, "[Green WLANs: On-Demand WLAN Infrastructures](#)," ACM Journal on Mobile Networks and Applications (MONET), vol. 14, num. 6, pp. 798-814, December 2009.
45. M. Wittie, K. Harras, K. Almeroth, and E. Belding, "[On the Implications of Routing Metric Staleness in Delay Tolerant Networks](#)," Computer Communications Special Issue on Delay and Disruption Tolerant Networking, vol. 32, num. 16, pp. 1699-1709, October 2009.
44. K. Harras, L. Deek, C. Holman, and K. Almeroth, "[DBS-IC: An Adaptive Data Bundling System for Intermittent Connectivity](#)," Computer Communications Special Issue on Delay and Disruption Tolerant Networking, vol. 32, num. 16, pp. 1687-1698, October 2009.

## E. Released Software Systems

19. *A Multi-radio Wireless Mesh Network Architecture* -- <http://moment.cs.ucsb.edu/tic/>. Released December 1, 2006 (with K. Ramachandran, I. Sheriff, and E. Belding). The software as part of a multi-radio wireless mesh network that includes a Split Wireless Router that alleviates the interference that can occur between commodity radios within a single piece of hardware. The second is server software to perform channel assignment and communicate the assignments throughout the mesh network.
18. *AODV-Spanning Tree (AODV-ST)* -- <http://www.cs.ucsb.edu/~krishna/aodv-st/>. Released September 1, 2006 (with K. Ramachandran and E. Belding). AODV-ST is an extension of the well-known AODV protocol specifically

designed for wireless mesh networks. The advantages of AODV-ST over AODV include support for high throughput routing metrics, automatic route maintenance for common-case traffic, and low route discovery latency.

17. ***The Multicast Detective*** -- [http://www.nmsl.cs.ucsb.edu/mcast\\_detective/](http://www.nmsl.cs.ucsb.edu/mcast_detective/). Released September 1, 2005 (with A. Sen Mazumder). The multicast detective is a robust solution to determine the existence and nature of multicast service for a particular user. By performing a series of tests, a user can determine whether there is network support for multicast, and consequently, whether a multicast group join is likely to succeed.
16. ***AutoCap: Automatic and Accurate Captioning*** -- <http://www.nmsl.cs.ucsb.edu/autocap/>. Released August 1, 2005 (with A. Knight). AutoCap is a software system that takes as input an audio/video file and a text transcript. AutoCap creates captions by aligning the utterances in the audio/video file to the transcript. For those words that are not recognized, AutoCap estimates when the words were spoken along with an error bound that gives the content creator an idea of caption accuracy. The result is a collection of accurately time-stamped captions that can be displayed with the video.
15. ***PAIRwise Plagiarism Detection System*** -- <http://cits.ucsb.edu/pair/>. Released July 1, 2005 (with A. Knight). PAIRwise is a plagiarism detection system with: (1) an easy-to-use interface for submitting papers, (2) a flexible comparison engine that allows intra-class, inter-class, and Internet-based comparisons, and (3) an intuitive graphical presentation of results.
14. ***DAMON Multi-Hop Wireless Network Monitoring*** -- <http://moment.cs.ucsb.edu/damon/>. Released October 1, 2004 (with K. Ramachandran and E. Belding). DAMON is a distributed system for monitoring multi-hop mobile networks. DAMON uses agents within the network to monitor network behavior and send collected measurements to data repositories. DAMON's generic architecture supports the monitoring of a wide range of protocol, device, or network parameters.
13. ***Multicast Firewall*** -- <http://www.nmsl.cs.ucsb.edu/mafia/>. Released June 1, 2004 (with K. Ramachandran). MAFIA, a multicast firewall and traffic management solution, has the specific aim of strengthening multicast security through multicast access control, multicast traffic filtering, and DoS attack prevention.
12. ***AODV@IETF Peer Routing Software*** -- <http://moment.cs.ucsb.edu/aodv-ietf/>. Released November 1, 2003 (with K. Ramachandran and E. Belding). One of the first large-scale efforts to run the Ad hoc On demand Distance Vector (AODV) routing protocol in a public space (at the Internet Engineering Task Force (IETF)). The implementation includes a daemon that runs on both the Linux and Windows operating systems.
11. ***Mobility Obstacles*** -- <http://moment.cs.ucsb.edu/mobility/>. Released September 1, 2003 (with A. Jardosh, E. Belding, and S. Suri). The topology and movement of nodes in ad hoc protocol simulation are key factors in protocol performance. In this project, we have developed ns-2 simulation plug-ins that create more realistic movement models through the incorporation of obstacles. These obstacles are utilized to restrict both node movement and wireless transmissions.
10. ***mwalk*** -- <http://www.nmsl.cs.ucsb.edu/mwalk/>. Released December 1, 2000 (with R. Chalmers). Mwalk is a collection of Java applications and Perl scripts which re-create a global view of a multicast session from mtrace and RTCP logs. Users to the site can download mwalk, examine the results of our analysis, or download data sets for use in simulations dependent on multicast tree characteristics.
9. ***MANTRA2*** -- <http://www.nmsl.cs.ucsb.edu/mantra/>. Released December 1, 1999 (with P. Rajvaidya). This new version of MANTRA focuses on the visualization of inter-domain routing statistics. Working in conjunction with the Cooperative Association for Internet Data Analysis (CAIDA) we have developed advanced collection and visualization techniques.
8. ***MRM*** -- <http://www.nmsl.cs.ucsb.edu/mrm/>. Released October 1, 1999 (with K. Sarac). MRM is the Multicast Reachability Protocol. We have implemented an end-host agent that responds to MRM Manager commands. Our end-host agent works in conjunction with Cisco routers to detect and isolate multicast faults.

7. **MANTRA** -- <http://www.nmsl.cs.ucsb.edu/mantra/>. Released January 1, 1999 (with P. Rajvaidya). MANTRA is the Monitoring and Analysis of Traffic in Multicast Routers. It uses scripts to collect and display data from backbone multicast routers.
6. **SDR Monitor** -- <http://www.nmsl.cs.ucsb.edu/sdr-monitor/>. Released January 1, 1999 (with K. Sarac). The SDR Monitor receives e-mail updates from participants containing information about observed sessions in the MBone. A global view of multicast reachability is then constructed.
5. **The MHealth tool** -- <http://www.nmsl.cs.ucsb.edu/mhealth/>. Released September 1, 1998 (with D. Makofske). The mhealth tool graphically visualizes MBone multicast group trees and provides 'health' information including end-to-end losses per receiver and losses on a per hop basis. The implementation required expertise in Java, the MBone tools, and Unix.
4. **The MControl tool** -- <http://www.nmsl.cs.ucsb.edu/mcontrol/>. Released August 1, 1998 (with D. Makofske). Mcontrol is a tool to provide VCR-based interactivity for live MBone sessions. The implementation required expertise in Java, the MBone tools, and Unix.
3. **Interactive Multimedia Jukebox (IMJ)** -- <http://imj.ucsb.edu/>. Released October 1, 1996. The IMJ combines the WWW and the MBone conferencing tools to provide a multi-channel video jukebox offering both instructional and entertainment programming on a wide scale. The implementation required expertise in HTML, Perl, C, the MBone tools, and Unix.
2. **Mlisten** -- <http://www.cc.gatech.edu/computing/Telecomm/mbone/>. Released September 1, 1995. A tool to continuously collect MBone multicast group membership information including number and location of members, membership duration, and inter-arrival time for all audio and video sessions. The implementation required expertise in C, Tcl/Tk, the MBone tools, and UNIX socket programming.
1. **Audio-on-Demand (AoD)**. March 1, 1995. A server/client prototype to demonstrate interactivity in near VoD systems. The AoD server provides songs-on-demand and VCR-like functions via multicast IP over Ethernet. The implementation required expertise in C, OpenWindows programming, UNIX socket programming, and network programming.

## F. Tutorials, Panels and Invited Talks

- "25th Anniversary Panel," Network and Operating System Support for Digital Audio and Video (NOSSDAV), Portland, Oregon, USA, March 2015.
- "Sensing and Opportunistic Delivery of Ubiquitous Video in Health Monitoring, On-Campus and Social Network Applications," Workshop on Mobile Video Delivery (MoViD), Chapel Hill North Carolina, USA, February 2012.
- "Medium Access in New Contexts: Reinventing the Wheel?," USC Invited Workshop on Theory and Practice in Wireless Networks, Los Angeles, California, USA, May 2008.
- "The Wild, Wild West: Wireless Networks Need a New Sheriff," University of Florida CISE Department Lecture Series, Gainesville, Florida, USA, February 2008.
- "Distinguishing Between Connectivity, Intermittent Connectivity, and Intermittent Disconnectivity," Keynote at the ACM MobiCom Workshop on Challenged Networks (CHANTS), Montreal, CANADA, September 2007.
- "The Three Ghosts of Multicast: Past, Present, and Future," Keynote at the Trans-European Research and Education Networking Association (TERENA) Networking Conference, Lynby, DENMARK, May 2007.
- "Multicast Help Wanted: From Where and How Much?," Keynote at the Workshop on Peer-to-Peer Multicasting

(P2PM), Las Vegas, Nevada, USA, January 2007.

- "The Confluence of Wi-Fi and Apps: What to Expect Next," Engineering Insights, UC-Santa Barbara, Santa Barbara, California, USA, October 2006.
- "Challenges, Opportunities, and Implications for the Future Internet," University of Minnesota Digital Technology Center, Minneapolis, Minnesota, USA, September 2006.
- "Wireless Technology as a Catalyst: Possibilities for Next-Generation Interaction," Santa Barbara Forum on Digital Transitions, Santa Barbara, California, USA, April 2006.
- "Challenges and Opportunities in an Internet with Pervasive Wireless Access," University of Texas--Dallas Computer Science Colloquium, Dallas, Texas, USA, March 2006.
- "Challenges and Opportunities with Pervasive Wireless in the Internet," Duke University Computer Science Colloquium, Durham, North Carolina, USA, February 2006.
- "The Span From Wireless Protocols to Social Applications," Intel Research Labs, Cambridge, United Kingdom, December 2005.
- "The Internet Dot.Com Bomb and Beyond the Dot.Com Calm," CSE IGERT and Cal Poly Lecture Series, San Luis Obispo, California, USA, October 2005.
- "Panel: Directions in Networking Research," IEEE Computer Communications Workshop (CCW), Irvine, California, USA, October 2005.
- "Economic Incentives for Ad Hoc Networks," KAIST New Applications Seminar, Seoul, South Korea, March 2004.
- "New Applications for the Next Generation Internet," Citrix Systems, Santa Barbara, California, USA, March 2004.
- "PI: The Imperfect Pursuit of Pure Pattern," CITS Visions in Technology Series, Santa Barbara, California, USA, January 2004.
- "Panel: Core Networking Issues and Protocols for the Internet," National Science Foundation (NSF) Division of Advanced Networking Infrastructure and Research (ANIR) Principal Investigators Workshop, Washington DC, USA, March 2003.
- "Panel: Pricing for Content in the Internet," SPIE ITCom Internet Performance and Control of Network Systems, Boston, Massachusetts, USA, July 2002.
- "The Technology Behind Wireless LANs," Central Coast MIT Enterprise Forum, Santa Barbara, California, USA, March 2002.
- "Lessons Learned in the Digital Classroom," Center for Information and Technology Brown Bag Symposium, Santa Barbara, California, USA, March 2002.
- "The Evolution of Advanced Networking Services: From the ARPAnet to Internet2," California State University--San Luis Obispo CS Centennial Colloquium Series, San Luis Obispo, California, USA, February 2002.
- "Deployment of IP Multicast in Campus Infrastructures," Internet2 Campus Deployment Workshop, Atlanta, Georgia, USA, May 2001.
- "Multicast: Is There Anything Else to Do?," Sprint Research Retreat, Miami, Florida, USA, May 2001.
- "The Evolution of Next-Generation Internet Services and Applications," Government Technology Conference 2001 (GTC) for the Western Region, Sacramento, California, USA, May 2001.

- "I2 Multicast: Not WIDE-scale Deployment, FULL-scale Deployment," Closing Plenary, Internet2 Member Meetings, Washington, D.C., USA, March 2001.
- "Panel: Beyond IP Multicast," Content Delivery Networks (CDN), New York, New York, USA, February 2001.
- "Viable Multicast Pricing & Business Models for Wider-Scale Deployment," Content Delivery Networks (CDN), New York, New York, USA, February 2001.

## H. Research Honors and Awards

- IEEE Fellow Status, 2013
- Finalist for Best Paper Award, IEEE Conference on Sensor and Ad Hoc Communications and Networks (SECON), June 2008
- Best Paper Award, Passive and Active Measurement (PAM) Conference, April 2007
- Outstanding Paper Award, World Conference on Educational Multimedia, Hypermedia & Telecommunications (ED MEDIA), June 2006
- IEEE Senior Member Status, 2003
- Finalist for Best Student Paper Award, ACM Multimedia, December 2002
- Outstanding Paper Award, World Conference on Educational Multimedia, Hypermedia & Telecommunications (ED MEDIA), June 2002
- Computing Research Association (CRA) Digital Government Fellowship, 2001
- National Science Foundation CAREER Award, 2000

- Best Paper Award, 7th International World Wide Web Conference, April 1998

### **III. Service**

#### **A. Professional Activities**

##### **1. Society Memberships**

Member, Association for Computing Machinery (ACM): 1993-present  
 Member, ACM Special Interest Group on Communications (SIGComm): 1993-present  
 Fellow, Institute of Electrical and Electronics Engineers (IEEE): 1993-present  
 Member, IEEE Communications Society (IEEE ComSoc): 1993-present  
 Member, American Society for Engineering Education (ASEE): 2003-2006

##### **2. Review Work for Technical Journals and Publishers**

NSF CISE research proposals, IEEE/ACM Transactions on Networking, IEEE/ACM Transactions on Computers, IEEE/ACM Transactions on Communications, IEEE Transactions on Circuits and Systems for Video Technology, IEEE Transactions on Parallel and Distributed Systems, IEEE Transactions on Multimedia, IEEE Communications, IEEE Communications Letters, IEEE Network, IEEE Internet Computing, IEEE Multimedia, IEEE Aerospace & Electronics Systems Magazine, ACM Transactions on Internet Technology, ACM Transactions on Multimedia Computing, Communications and Applications, ACM Computing Surveys, ACM Computer Communications Review, ACM Computeres in Entertainment, ACM/Springer Multimedia Systems Journal, AACE Journal of Interactive Learning (JILR), International Journal of Computer Mathematics, Journal of Communications and Networks, Journal of Parallel and Distributed Computing, Journal of Network and Systems Management, Journal of High Speed Networking, Journal of Communications and Networks, Journal on Selected Areas in Communications, Journal of Wireless Personal Communications, Personal Mobile Communications, Annals of Telecommunications, International Journal of Wireless and Mobile Computing, Pervasive and Mobile Computing (PMC), Wireless Networks Journal, Computer Networks Journal, Cluster Computing, Computer Communications, Mobile Computing and Communications Review, Performance Evaluation, Software--Practice & Experience, Information Processing Letters, ACM Sigcomm, ACM Multimedia, ACM Network and System Support for Digital Audio and Video Workshop (NOSSDAV), ACM Sigcomm Workshop on the Economics of Peer-to-Peer Systems (P2PEcon), ACM Sigcomm Workshop on Challenged Networks (CHANTS), IEEE Infocom, IEEE Globecom, IEEE Global Internet (GI) Symposium, IEEE Globecom Automatic Internet Symposium, IEEE Globecom Internet Services and Enabling Technologies (IS&ET) Symposium, IEEE International Symposium on a World of Wireless, Mobile and Multimedia Networks (WoWMoM), IEEE International Conference on Network Protocols (ICNP), IEEE Conference on Sensor and Ad Hoc Communications and Networks (SECON), IEEE International Conference on Multimedia and Exposition (ICME), IEEE International Conference on Communications (ICC), IEEE International Conference on Parallel and Distributed Systems (ICPADS) IEEE International Symposium on High-Performance Distributed Computing (HPDC), IEEE International Conference on Distributed Computing Systems (ICDCS), IEEE International Workshop on Quality of Service (IWQoS), IEEE/IFIP Network Operations and Management Symposium (NOMS), IFIP/IEEE International Symposium on Integrated Network Management (IM), IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS), IEEE Aerospace & Electronics Systems Magazine, SPIE Conference on Multimedia Computing and Networking (MMCN), IFIP Networking, IASTED International Conference on Information Systems and Databases

(ISD), IASTED International Conference on Communications, Internet, and Information Technology, IASTED International Conference on Internet and Multimedia Systems and Applications (IMSA), IASTED International Conference on European Internet and Multimedia Systems and Applications (EuroIMSA), IASTED International Conference on Communications and Computer Networks (CCN), IASTED International Conference on Software Engineering and Applications (SEA), International Conference on Computer and Information Science (ICIS), International Association for Development of the Information Society (IADIS) International Conference on the WWW/Internet, Workshop on Network Group Communication (NGC), International Conference on Next Generation Communication (CoNEXT), International Conference on Parallel Processing (ICPP), International Conference on Computer Communications and Networks (IC3N), International Workshop on Hot Topics in Peer-to-Peer Systems (Hot-P2P), International Workshop on Wireless Network Measurements (WinMee), International Workshop on Incentive-Based Computing (IBC), International Workshop on Multi-hop Ad Hoc Networks (REALMAN), International Workshop on Broadband Wireless Multimedia: Algorithms, Architectures and Applications (BroadWIM), International Packet Video (PV) Workshop, High Performance Networking Conference (HPN), International Parallel Processing Symposium (IPPS), International Symposium on Innovation in Information & Communication Technology (ISIICT), Workshop on Coordinated Quality of Service in Distributed Systems (COQODS), Pearson Education (Cisco Press) Publishers, Macmillan Technical Publishing, and Prentice Hall Publishers.

### **3. Conference Committee Activities**

#### **Journal/Magazine Editorial Board**

IEEE/ACM Transactions on Networking (ToN): 2003-2009, 2013-present  
 Journal of Network and Systems Management (JNSM): 2011-present  
 ACM Computers in Entertainment: 2002-present  
 IEEE Network: 1999-2012  
 AACE Journal of Interactive Learning Research (JILR): 2003-2012  
 IEEE Transactions on Mobile Computing (TMC): 2006-2011  
 ACM Computer Communications Review (CCR): 2006-2010

#### **Journal/Magazine Guest Editorship**

IEEE Journal on Selected Areas in Communications (JSAC) Special Issue on "Delay and Disruption Tolerant Wireless Communication", June 2008  
 Computer Communications Special Issue on "Monitoring and Measuring IP Networks", Summer 2005  
 Computer Communications Special Issue on "Integrating Multicast into the Internet", March 2001

#### **Conference/Workshop Steering Committee**

IEEE International Conference on Network Protocols (ICNP): 2007-present  
 ACM Sigcomm Workshop on Challenged Networks (CHANTS): 2006-present  
 International Workshop on Network and Operating System Support for Digital Audio and Video (NOSSDAV): 2001-present, 2005-2011 (chair), 2012-present (co-chair)  
 IEEE Global Internet (GI) Symposium: 2005-2013  
 IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS): 2005-2009

#### **Conference/Workshop Chair**

International Conference on Communication Systems and Networks (COMSNETS): 2014 (co-chair)  
 ACM International Conference on Next Generation Communication (CoNext): 2013 (co-chair)  
 ACM RecSys News Recommender Systems (NRS) Workshop and Challenge: 2013 (co-chair)  
 ACM Sigcomm Workshop on Challenged Networks (CHANTS): 2006 (co-chair)

IEEE International Conference on Network Protocols (ICNP): 2003 (co-chair), 2006  
International Workshop on Wireless Network Measurements (WiNMee): 2006 (co-chair)  
IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS): 2002 (co-chair)  
International Workshop on Network and Operating System Support for Digital Audio and Video (NOSSDAV): 2002 (co-chair), 2003 (co-chair)  
IEEE Global Internet (GI) Symposium: 2001 (co-chair)  
International Workshop on Networked Group Communication (NGC): 2000 (co-chair)

#### **Program Chair**

International Conference on Computer Communication and Networks (ICCCN): 2015 (Track co-chair)  
International Conference on Communication Systems and Networks (COMSNETS): 2010  
IEEE International Conference on Network Protocols (ICNP): 2008 (co-chair)  
IEEE Conference on Sensor and Ad Hoc Communications and Networks (SECON): 2007 (co-chair)  
IFIP Networking: 2005 (co-chair)

#### **Posters/Demonstrations Chair**

ACM Sigcomm: 2012 (co-chair)

#### **Student Travel Grants Chair**

ACM Sigcomm: 2010 (co-chair)

#### **Publicity Chair**

IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS): 2004 (co-chair)

#### **Keynote Chair**

IEEE Infocom: 2005 (co-chair)

#### **Local Arrangements Chair**

Internet2 "Field of Dreams" Workshop: 2000

#### **Tutorial Chair**

ACM Multimedia: 2000  
IEEE International Conference on Network Protocols (ICNP): 1999

#### **Panel/Session Organizer**

NSF ANIR PI 2003 Panel on "Core Networking Issues and Protocols for the Internet"  
CCW 2001 Session on "Multicast/Peer-to-Peer Networking"  
NOSSDAV 2001 Panel on "Multimedia After a Decade of Research"  
NGC 2000 Panel on "Multicast Pricing"

#### **Technical Program Committee**

IEEE International Conference on Network Protocols (ICNP): 1999, 2000, 2001, 2003, 2004, 2005, 2006, 2007, 2008, 2009 (Area Chair), 2010 (Area Chair), 2011 (Area Chair), 2012 (Area Chair), 2013, 2014 (Area Chair), 2015 (Area Chair), 2016 (Area Chair)  
International Workshop on Network and Operating System Support for Digital Audio and Video

(NOSSDAV): 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016

ACM Multimedia (MM): 2001, 2003, 2004, 2005 (short paper), 2006, 2007, 2008, 2008 (short paper), 2010, 2011, 2012, 2013, 2015

IEEE Conference on Sensor and Ad Hoc Communications and Networks (SECON): 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011 (Area Chair), 2012 (Area Chair), 2013, 2014 (Area Chair), 2015, 2016 (Area Chair)

IEEE/IFIP Network Operations and Management Symposium (NOMS): 2004, 2006, 2010

IEEE Infocom: 2004, 2005, 2006, 2008, 2009, 2010 (Area Chair), 2011 (Area Chair), 2012 (Area Chair)

IFIP Networking: 2004, 2005, 2006, 2007, 2010, 2011, 2012, 2013, 2014, 2015, 2016

ACM Workshop on Mobile Video (MoVid): 2014, 2015, 2016

ACM Student Research Competition (SRC) Grand Finals: 2014

Mobile and Social Computing for Collaborative Interactions (MSC): 2014

IEEE Conference on Communications and Network Security (CNS): 2013

IEEE International Symposium on a World of Wireless, Mobile and Multimedia Networks (WoWMoM): 2005, 2006, 2007, 2008, 2009, 2010

ACM Sigcomm Workshop on Challenged Networks (CHANTS): 2006, 2008, 2009, 2010, 2011, 2012, 2016

IEEE International Conference on Distributed Computing Systems (ICDCS): 2006, 2010, 2011, 2012, 2013

International Workshop on Wireless Network Measurements (WinMee): 2006, 2008, 2010

ACM Sigcomm: 2008 (poster), 2010

IEEE International Conference on Computer Communication and Networks (IC3N): 2008, 2009, 2010, 2011, 2012

International Conference on Communication Systems and Networks (COMSNETS): 2009, 2010, 2011, 2012, 2013

International Conference on Sensor Networks (SENSORNETS): 2012

International Workshop on Social and Mobile Computing for Collaborative Environments (SOMOCO): 2012

Workshop on Scenarios for Network Evaluation Studies (SCENES): 2009, 2010, 2011

ACM Multimedia Systems (MMSys): 2010, 2011, 2012, 2015, 2016

IEEE International Conference on Pervasive Computing and Communications (PerCom): 2010

IEEE Wireless Communications and Networking Conference (WCNC): 2010, 2011

ACM International Symposium on Mobility Management and Wireless Access (MobiWac): 2010, 2011

International Conference on Computing, Networking and Communications, Internet Services and Applications Symposium (ICNC-ISA): 2012, 2013

IEEE WoWMoM Workshop on Hot Topics in Mesh Networking (HotMesh): 2010, 2011, 2012, 2013

IEEE Workshop on Pervasive Group Communication (PerGroup): 2010

ACM International Conference on Next Generation Communication (CoNEXT): 2005, 2006, 2007, 2009, 2012

IEEE International Conference on Broadband Communications, Networks, and Systems (BroadNets)

Wireless Communications, Networks and Systems Symposium: 2007, 2008, 2009

IEEE International Conference on Broadband Communications, Networks, and Systems (BroadNets)

Internet Technologies Symposium: 2007, 2008, 2009

International Workshop on Mobile and Networking Technologies for Social Applications (MONET): 2008, 2009

Extreme Workshop on Communication-The Midnight Sun Expedition (ExtremeCom): 2009

IEEE International Workshop on Cooperation in Pervasive Environments (CoPE): 2009

International Workshop on the Network of the Future (FutureNet): 2009, 2010, 2011, 2012

IEEE International Conference on Multimedia and Exposition (ICME): 2010

SPIE Conference on Multimedia Computing and Networking (MMCN): 2004, 2008

ACM Sigcomm Workshop on the Economics of Networks, Systems, and Computation (NetEcon):

2008

IEEE International Conference on Communications (ICC): 2008  
 IEEE International Conference on Mobile Ad-hoc and Sensor Systems (MASS): 2008  
 IFIP/IEEE International Symposium on Integrated Network Management (IM): 2005, 2007  
 Global Internet (GI) Symposium: 2001, 2002, 2004, 2006, 2007  
 IEEE/ACM International Conference on High Performance Computing (HiPC): 2007  
 ACM International Symposium on Mobile Ad Hoc Networking and Computing (MobiHoc): 2007  
 IEEE Workshop on Embedded Systems for Real-Time Multimedia (ESTIMedia): 2007  
 IEEE/IFIP Wireless On Demand Network Systems and Services (WONS): 2007  
 IFIP/IEEE International Conference on Management of Multimedia Networks and Services (MMNS): 2001, 2002, 2003, 2004, 2005, 2006  
 IASTED International Conference on European Internet and Multimedia Systems and Applications (EuroIMSA): 2004, 2006  
 IEEE International Conference on Parallel and Distributed Systems (ICPADS): 2005, 2006  
 IEEE Globecom Internet Services and Enabling Technologies (IS&ET) Symposium: 2006  
 International Workshop on Incentive-Based Computing (IBC): 2006  
 IEEE International Workshop on Quality of Service (IWQoS): 2006, 2014, 2015  
 International Workshop on Multi-hop Ad Hoc Networks (REALMAN): 2006  
 IEEE Globecom Automatic Internet Symposium: 2005  
 ACM Sigcomm Workshop on the Economics of Peer-to-Peer Systems (P2PEcon): 2005  
 International Conference on Parallel Processing (ICPP): 2001, 2003, 2004  
 International Packet Video (PV) Workshop: 2002, 2003, 2004  
 IEEE International Symposium on High-Performance Distributed Computing (HPDC): 2004  
 ACM Sigcomm: 2004 (poster)  
 International Workshop on Broadband Wireless Multimedia: Algorithms, Architectures and Applications (BroadWIM): 2004  
 International Symposium on Innovation in Information & Communication Technology (ISIICT): 2004  
 Workshop on Coordinated Quality of Service in Distributed Systems (COQODS): 2004  
 IASTED International Conference on Networks and Communication Systems (NCS): 2004  
 IASTED International Conference on Communications, Internet, and Information Technology (CIIT): 2004  
 IASTED International Conference on Internet and Multimedia Systems and Applications (IMSA): 2003, 2004  
 International Workshop on Networked Group Communication (NGC): 1999, 2000, 2001, 2002, 2003  
 International Association for Development of the Information Society (IADIS) International Conference on the WWW/Internet: 2003  
 International Conference on Computer and Information Science (ICIS): 2003  
 Human.Society@Internet: 2003  
 IASTED International Conference on Communications and Computer Networks (CCN): 2002  
 The Content Delivery Networks (CDN) Event: 2001  
 IP Multicast Initiative Summit: 1998, 1999, 2000  
 Corporation for Education Network Initiatives in California (CENIC): 1999  
 Internet Bandwidth Management Summit (iBAND): 1998, 1999

## **B. Technical Activities**

### **1. Working Groups**

Internet2 Working Group on Multicast, Chair: 1998-2005  
 IEEE Communications Society Internet Technical Committee (ITC), Conference Coordinator: 2000-2004  
 IETF Multicast Directorate (MADDOGS), Member: 1999-2001

IASTED Technical Committee on the Web, Internet and Multimedia, Member: 2002-2005  
Internet Engineering Task Force (IETF), various working groups: 1995-present

## **2. Meeting Support Work**

Internet Engineering Task Force MBone broadcasts: 1995-2005  
Conference MBone broadcasts: Sigcomm '99, and '00  
Interop+Networld Network Operations Center (NOC) Team Member: 1995-1997  
ACM Multimedia technical staff: 1994

## **C. University of California Committees**

### **1. Department of Computer Science Committees**

Public Relations: 2005-2006 (chair 2005-2006), 2009-2011 (chair 2009-2011)  
Strategic Planning: 2000-2002, 2003-2006, 2009-2011  
Undergraduate Advising and Affairs: 2006-2007, 2014-2015  
Vice Chair: 2000-2005  
Graduate Admissions: 2000-2005 (chair 2000-2005), 2011-2012  
Graduate Affairs: 2000-2005 (co-chair 2000-2005)  
Teaching Administration: 2000-2005  
Facilities: 1997-2001 (chair 1999-2000), 2006-2007  
External Relations: 1999-2002  
Computer Engineering Public Relations: 2011-2012  
Computer Engineering Awards: 2011-2012  
Computer Engineering Administration/Recruiting: 1998-2001  
Computer Engineering Lab and Computer Support: 1998-2001  
Faculty Recruiting: 1999-2002  
Graduate Advising: 1998-1999, 2000-2005

### **2. University Committees**

Member, Campus Budget and Planning: 2013-2015  
Faculty, Cognitive Science Program: 2006-present  
Faculty, Technology Management Program (TMP): 2003-2014  
Faculty, Media Arts and Technology (MAT) Program: 1998-2014  
Faculty, Computer Engineering Degree Program: 1998-present  
Steering Committee, Center for Information Technology and Society (CITS): 2012-present  
Associate Director, Center for Information Technology and Society (CITS): 1999-2012  
Member, Campus Committee on Committees: 2010-2013  
Member, Campus Income and Recharge Committee: 2010-2013  
Member, College of Engineering Executive Committee: 2010-2012 (chair 2011-2012), 2014-2015 (chair 2014-2015)  
Member, Distinguished Teaching Award Committee: 2009, 2010, 2011  
Member, Campus Classroom Design and Renovation Committee: 2003-2010  
Member, ISBER Advisory Committee: 2008-2011  
Member, Fulbright Campus Review Committee: 2007  
Member, Faculty Outreach Grant Program Review Committee: 2007  
Executive Vice Chancellor's Information Technology Fee Committee: 2005-2006

Council on Research and Instructional Resources: 2003-2006  
Executive Vice Chancellor's Working Group on Graduate Diversity: 2004-2005  
Member, Engineering Pavillion Planning Committee: 2003-2005  
Information Technology Board: 2001-2004  
Executive Committee, Center for Entrepreneurship & Engineering Management (CEEM): 2001-2004

### **3. System Wide Committees**

UCSB Representative to the Committee on Information Technology and Telecommunications Policy (ITTP): 2003-2005  
UCSB Representative to the Executive Committee, Digital Media Innovation (DiMI): 1998-2003

### **D. Georgia Tech Committees and Service (while a graduate student)**

Graduate Student Body President: 1994-1995  
Georgia Tech Executive Board: 1994-1995  
Georgia Tech Alumni Association Executive Committee: 1994-1995  
Dean of Students National Search Committee: 1995  
Institute Strategic Planning Committee: 1994-1996
